Session 3: November 20-21, 2010

Session 4: December 18-19, 2010

Featured Speakers

Rhys Spoor, D.D.S.

Dr. Rhys Spoor D.D.S., F.A.G.D. is an international educator in aesthetic and restorative dentistry. Also a recognized expert in dental and portrait photography, Dr. Spoor teaches advanced clinical programs to practicing dentists. Dr. Spoor continues to be a sought out lecturer in the dental profession for his artistic abilities, for his creativity, and his technical expertise.

Clayton Chan, D.D.S

Dr. Chan is considered an authority on Neuromuscular Occlusion and instrumentation and was formerly the director of Neuromuscular Dentistry at the Las Vegas Institute. Dr. Chan maintains a private practice focusing on TMD, esthetic rehabilitation and ortho/orthopedic treatment. Dr. Chan has lectured nationally and internationally on the subject of neuromuscular occlusion and its clinical relevance to the dental profession. He is noted for his precision in dental occlusion, bite management and bite transfer techniques applying the gnathologic and neuromuscular principles. Dr. Chan trains dentists and their team to develop the diagnostic and treatment skills needed to successfully meet the occlusal challenges they face in their dental practice.

Ron Jackson, D.D.S.

Dr. Ron Jackson has published many articles on aesthetic and adhesive dentistry, and has lectured extensively across the United States and abroad. Dr. Jackson has presented at all the major U.S. scientific conferences, as well as at Esthetic Academies in Europe, Asia and South America. Dr. Jackson is Director of the Advanced Adhesive Aesthetic Dentistry and Anterior Direct Resin Programs at the Las Vegas Institute for Advanced Dental Studies. Dr. Jackson maintains a private practice emphasizing in comprehensive, restorative, and cosmetic dentistry.

Jason Goodchild, D.D.S

Jason H. Goodchild, DMD is a graduate of Dickinson College in Carlisle, Pennsylvania. He received his dental training at the University of Pennsylvania School of Dental Medicine where he still holds a Speakers position as an Assistant Clinical Professor in the Department of Oral Medicine. As part of his training and service in the Department of Oral Medicine he was educated in Enteral sedation and completed numerous cases at the dental school and the Hospital of the University of the University of Pennsylvania. As a part of his Speakers duties he treats patients with complex medical histories, and oversees students and residents.

Course Highlights

- Conservative aesthetics for an immediate smile makeover: Giving patients the best value by using techniques in cosmetic contouring, bleaching, and direct resin bonding.
- When to use laminates or crowns as the treatment of choice.
- Step-by-step procedures for treatment planning of simple and complex cases.
- Managing difficult patients before they manage you.
- Building the right team is essential.
- The importance of being your own photographer and how to become one if you are not.
- Why being paid first will increase your case acceptance.
- Incorporating Smile Design principles into removable prosthetics.
- Winning patients' trust by building lasting relationships.
- The importance of Occlusion and why it cannot be ignored.
- Different impression techniques that work better with materials you already use.
- Techniques in direct vs. indirect restorations.
- Create a successful practice with functional aesthetic dentistry.
- Adhesive dental principles that stick.
- Phase I: Orthotic use and Phase II: Bite Management.
- The art, science and simplicity of direct composites and aesthetic restorative excellence with inlays/onlays and metal-free crowns.
- Class II: Faster, easier and better direct resins.
- Choosing materials resin/ceramic, indications/contraindications—assuring success, simplified shade taking and lab communication, preparation criteria and sequence.
- A comprehensive review of the foundation knowledge necessary to begin using oral sedation, or enhance the techniques you are already using
- A discussion of the rules and regulations involving oral sedation, and strategies to help keep both you and your patients safe
- Ways to integrate oral sedation into your practice, specifically discussing scheduling for longer cosmetic/restorative cases, and the “pearls” to help make oral sedation a success in your office
